- **LinkedIn**: Abdulakeem Adebayo
- **Medium**: @adebayoabdulakeem

- **Portfolio**:badim04.github.io/ai-trainer

Professional Summary

AI Trainer and LLM Evaluator with a software engineering and data science background, which lets me write, test and judge technical and domain-specific tasks that frontier models actually struggle with. I have designed adversarial benchmarking tasks (binary recovery scenarios, domain-knowledge probes), completed finance-domain annotation and quality-check assessments, and I build LLM-powered software daily with Claude and Gemini. Strong in Python, JavaScript/TypeScript, SQL, statistics and finance/trading, with clear written explanations and careful rubric-following.

Work Experience

Freelance AI Trainer & Software Engineer
LLM Evaluation, Annotation & AI Development | Remote
2023 – Present

- Designed and contributed **adversarial evaluation tasks for frontier LLM benchmarking** projects, probing model capability limits through binary recovery scenarios and domain-specific knowledge tasks.
- Completed **AI training and data-annotation assessments** (finance-domain annotation, quality-check and query-rewriting tasks), and recorded screen-captured solution walkthroughs for review.
- Built **Finlo**, a finance app with a **4-layer transaction categoriser** (user rules, history, merchant lexicon, **Gemini LLM fallback**). Receipt OCR and read-only Gmail parsing feed a review queue, and email content is treated as untrusted input (tested against prompt injection).
- Built **ShiftPilot**, a shift-scheduling app for agency workers (**Expo Router, TypeScript, Supabase/Postgres with Row-Level Security, realtime**): conflict detection in SQL, a **pg_cron "leave-by" engine** that uses Google Maps live traffic to send push alerts, and an **email webhook where Claude extracts shift details** into a review queue.
- Built a **football shots prediction model** (**Python, XGBoost, Poisson thresholds, SQLite, Streamlit, GitHub Actions**) trained on about **9,000 matches across 8 competitions**: leakage-safe rolling features, opponent defence z-scores, time-based holdout and drift checks, retrained automatically every week.

- Developed **MQL5 Expert Advisors** and a **Python event-driven backtester** for Smart Money Concepts strategies (fair value gaps, order blocks, liquidity sweeps), enforcing prop-firm risk rules (3% daily and 6% max loss) with no look-ahead bias.

Technotrend Platforms Nigeria Ltd.
Data Specialist / Backend Developer / Product Analyst
2023 - 2025

- Developed and deployed **machine learning models** for personalised content recommendations, resulting in a **25% increase in user engagement**.
- Implemented **A/B testing**, optimising features and improving customer satisfaction by **18%** based on statistical results.
- Created interactive reports and dashboards using **Tableau, Excel and Power BI**, accelerating decisions and reducing report generation time by **30%**.
- Facilitated implementation of **fraud detection** mechanisms and **double opt-in validation** workflows, aligning client requirements with provider capabilities for regulatory compliance.

Extern | Beats by Dre.
Consumer Insights and Market Intelligence (Remote Extern)
2024

- Researched **macro consumer trends among Gen Z** and benchmarked brand sentiment against key competitors.
- Developed and presented a **data-driven strategy** for connecting with Gen Z, using surveys, interviews and market analysis.

Azubi Africa
Data Analytics Professional
2022 - 2023

- Led multiple data analytics projects, improving team efficiency by **20%** through streamlined communication and task allocation.
- Developed machine learning models that enhanced data analysis, leading to a **10% improvement in prediction accuracy** and better resource allocation.

Earlier Experience

- **O'dua Telecoms, Onet** – *Technology Intern* (2017 - 2018): Provided technical support and troubleshooting, improving system uptime by **15%**.
- **Africa Internet Holdings (JUMIA)** – *Quality Control* (2015): Monitored and enforced quality standards across operations, reducing the defective product rate by **10%**.
- **Africa Internet Holdings (KAYMU)** – *Content Manager* (2013): Managed and optimised site content, leading to a **12% increase in site traffic** and improved SEO performance.

Education

Obafemi Awolowo University
Bachelor of Computer Science with Economics
2014 - 2021

Certifications

- **ALX AiCE AI Career Essentials** (2024) (**Certified**)
- **IIM Certified Data Protection Officer (CDPO), NDPC authority** (2026) (**Certified**)
- **AWS Cloud Practitioner** (2022) (**Certified**)
- **Google Data Analytics Professional** (2022) (**Certified**)
- **Azubi Africa Data Analytics Professional** (2022 - 2023) (**Certified**)
- **McKinsey Forward Thinking** (2022 - 2023) (**Certified**)
- **Python for Financial Analysis and Algorithm Trading** (2020)

Skills

Technical Skills

- **LLM evaluation:** adversarial task design, frontier model benchmarking, data annotation, quality review
- **Prompt engineering:** system prompts, tool schemas, evaluation rubrics, prompt-injection-aware design
- **LLM / AI APIs:** Claude (Anthropic), Gemini, function calling / tool use, structured extraction
- **Python data stack:** pandas, NumPy, scikit-learn, XGBoost, deep learning (LSTM, Transformer), Jupyter
- **Frontend:** React, Next.js 15, TypeScript, JavaScript (ES2023), HTML5, CSS3, Tailwind CSS, Framer Motion, Bootstrap
- **SQL:** PostgreSQL, MySQL, BigQuery, SQLite
- **MQL4/MQL5:** Forex and crypto trading bots, backtesting
- **Domain expertise:** software engineering, data science, statistics, finance and algorithmic trading, telecoms
- **Soft skills:** Analytical Thinking, Problem Solving, Experimental Mindset, Clear Written Communication, Fast Learner, Time Management
- **Languages:** English (Native), French (Basics), Spanish (Basics), Arabic (Basics)

Projects/Articles

Personal Projects

- **ML Ensemble Trading System** – LSTM, Transformer, XGBoost, FinBERT sentiment
- **Frontier LLM Adversarial Benchmarking** – evaluation task design
- **Finlo** – multi-currency budgeting and forecasting app (Expo, React Native, TypeScript, SQLite, Gemini)
- **ShiftPilot** – shift scheduler with live-traffic leave-by alerts and AI email parsing (Expo, Supabase, Claude)
