Professional Summary

Data Analyst who turns messy data into decisions. At Technotrend I tracked VAS funnels across IVR, USSD, SMS and web (CTR, conversion, ARPU, churn), found user behaviours that lifted retention by 15%, ran A/B tests that improved satisfaction by 18%, and built Tableau, Power BI and Excel dashboards that cut reporting time by 30%. Certified by Google and Azubi Africa in data analytics, with Python and SQL skills for cleaning, EDA, cohort analysis and forecasting, and a habit of presenting findings clearly to non-technical teams.

Work Experience

Freelance Data Analyst
Analytics, Dashboards & Reporting | Remote
2023 – Present

- Built **Sports Bet Claude**, a sports analytics engine (**Python, Flask, Playwright, Docker**) that collects form, xG and head-to-head data across 20+ competitions and 4 sports, scores picks with **sample-size-shrunk hit rates**, grades every pick against real results, and **re-calibrates its own confidence** each week.
- Built the analytics core of **Finlo**, a personal finance app: **three forecasting models** (Holt linear trend, seasonal naive, mean) compete on a **rolling-origin backtest** and ship with their error rate; prediction bands widen with the horizon; plus anomaly and recurring-payment detection.
- Built a **football shots prediction model** (**Python, XGBoost, Poisson thresholds, SQLite, Streamlit, GitHub Actions**) trained on about **9,000 matches across 8 competitions**: leakage-safe rolling features, opponent defence z-scores, time-based holdout and drift checks, retrained automatically every week.
- Automated e-commerce operations for a retail client: scraped the store catalogue via the Bumpa API, generated **Google Merchant Center feeds** (one Excel file per category plus an issues sheet), and built a **photo-prep tool** that removes backgrounds, squares and compresses product photos.
- Built a **Playwright QA suite of 103 automated test scenarios** (SIT and UAT stages) for **Oikos**, a NestJS + React property-management SaaS, producing Excel/JSON reports and crash screenshots per failure.

Technotrend Platforms Nigeria Ltd.
Data Specialist / Product Analyst / Backend Developer
2023 - 2025

- Created interactive reports and dashboards using **Tableau, Excel and Power BI**, accelerating decisions and reducing report generation time by **30%**.
- Monitored and reported on VAS sales funnel performance across **IVR, USSD, SMS and Web**, tracking **KPIs** such as **CTR**, conversion rate, **ARPU** and churn to find optimisation opportunities.
- Conducted data analysis that identified key user behaviours, leading to a **15% increase in user retention** and a **20% boost in website performance**.
- Implemented **A/B testing**, optimising features and improving customer satisfaction by **18%** based on statistical results.
- Facilitated implementation of **fraud detection** mechanisms and **double opt-in validation** workflows, aligning client requirements with provider capabilities for regulatory compliance.
- Coordinated **VAS (Value-Added Services)** product implementations including **Miniloan** and **Call Collect**, managing communication between client stakeholders and third-party providers using **Voice Event Manager (VEM)** for IVR-based delivery.

Extern | Beats by Dre.
Consumer Insights and Market Intelligence (Remote Extern)
2024

- Researched **macro consumer trends among Gen Z** and benchmarked brand sentiment against key competitors.
- Developed and presented a **data-driven strategy** for connecting with Gen Z, using surveys, interviews and market analysis.

Azubi Africa
Data Analytics Professional
2022 - 2023

- Led multiple data analytics projects, improving team efficiency by **20%** through streamlined communication and task allocation.
- Developed machine learning models that enhanced data analysis, leading to a **10% improvement in prediction accuracy** and better resource allocation.

Earlier Experience

- **O'dua Telecoms, Onet** – *Technology Intern* (2017 - 2018): Provided technical support and troubleshooting, improving system uptime by **15%**.
- **Africa Internet Holdings (JUMIA)** – *Quality Control* (2015): Monitored and enforced quality standards across operations, reducing the defective product rate by **10%**.
