Professional Summary

Video Editor and Motion Graphics Creator producing short-form promos, explainers and tutorials for social media. I produced a 5-video launch pack (10–45 seconds, square and widescreen cuts) plus 15 social images and banners for a product launch, built a frame-accurate render pipeline that turns animated designs into MP4, and cut real screen recordings into step-by-step tutorials. My background as a content manager (+12% site traffic) and in tech and data means I understand the product I am editing for and the metrics that matter after posting.

Work Experience

Freelance Video Editor & Content Creator
Promos, Tutorials, Motion Graphics & Social Content | Remote
2023 – Present

- Produced a **5-video launch and tutorial pack** for PROWL (10–45 seconds; **1080×1080 and 1920×1080** cuts for X, TikTok, Reels and Shorts), built as **HTML/CSS motion graphics** and rendered frame-accurately to **MP4 with Playwright + FFmpeg**.
- Captured real product screenshots and screen recordings and cut them into a **45-second step-by-step tutorial video** showing every feature, with on-screen labels and honest “example” disclaimers.
- Designed **15 social images** (1800×1013), DexScreener header banners, 15 post captions with alt text, and a posting schedule, so the content pack was ready to publish.
- Designed an **AI-assisted short-form football content pipeline**: RSS/news ingestion, per-story scripts, AI video generation and a publishing log for tracking performance across platforms.
- Created a **32-second personalised animated birthday video** starring Bluey, my nephew's favourite character, using **ChatGPT and Google Flow** (AI video generation) to produce the scenes and story.
- Created **Google Play Store listing assets** for CodeDial (feature graphic, icon, screenshots, short and full descriptions) and its hosted privacy and data-deletion pages.
